

FleetSharp Partners with FieldEdge for GPS

FleetSharp GPS Tracking integrates with FieldEdge to provide a complete solution for field service managers to track vehicle and asset locations, driver behavior, and vehicle maintenance needs—all in one place.

With plug and play and other easy to install device options, and free mobile apps, FleetSharp gives you precise data on your vehicles, drivers, and equipment anytime and anywhere. Get instant vehicle location data right inside your FieldEdge software for accurate real-time job dispatching. Then log into the FleetSharp portal and set up alerts for driver behavior, maintenance needs, geofence locations, and more.

Adding FleetSharp GPS to your FieldEdge solution helps you:

Find asset locations

Monitor driving behavior

Validate timecards

Reduce fuel costs

Avoid surprise breakdowns

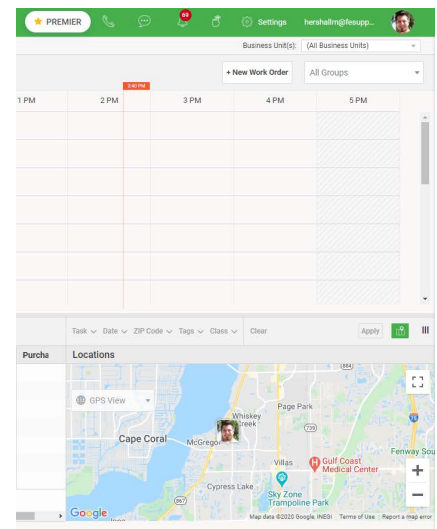

Protect against theft

Optimize dispatching

Prevent unauthorized use

With the combined power of FleetSharp and FieldEdge, you can:

- Immediately identify vehicle and driver locations for more accurate dispatching, right inside your FieldEdge software.
- Set up custom alerts for time sensitive events, hourly job summaries, and daily reporting of driving behavior.
- Save money by accurately tracking mileage.
- Reduce idling and inefficient routes to achieve better fuel cost management.
- Verify time spent on jobs for more accurate billing.

FleetSharp's easy to install and easy to use system will have you up and running within minutes.
